

Governor Wentworth Regional School District

Serving the NH communities of

Brookfield Effingham New Durham Ossipee Tuftonboro Wolfeboro

It is with great pleasure that I give my testimonial for Lin-Pol for its value in the educational arena. I have been using Lin-Pol for 2 years now and continue to discover what a wonderful budget saving product this is. Not only are my floors cleaner than ever but I have been able to purchase much needed equipment with the money I have saved on floor finish, burnishing pads, and propane. I have literally saved thousands of dollars in my yearly budget for the past 2 years. I have been able to better utilize my man hours now that we save approximately 6-8 hours a week that we had been using just to burnish halls. During school vacation periods we are now able to deep clean areas such as our auditorium/community center that had been neglected in the past as we raced around trying to scrub and refinish halls and cafeteria areas. We put 3 coats of floor finish on our halls in the summer and haven't needed to recoat for the entire school year thanks to Lin-Pol's protective qualities. Our floors have a beautiful gloss that is only enhanced if we burnish them which now is once a week or less compared to nightly before our switch to Lin-Pol. Our faculty and staff have also noticed the improvement in the consistency of our floor appearance throughout the year and we have greatly improved our air quality now that we don't burnish our floors as often.
